CUSTOMER EDUCATION & ENABLEMENT LEADER | SAAS LEARNING PROGRAMS | PRODUCT TRAINING & CERTIFICATION

PROFESSIONAL SUMMARY

Customer Education and Enablement leader with 13+ years of SaaS experience building scalable learning programs that drive product adoption and customer engagement. Grew Payscale's customer education webinar program by over 400% in annual offerings and approximately 400% in live attendance, with attendees showing 2–3× higher product engagement than non-attendees. Conceptualized and led a live certification initiative that drove a 204% increase in monthly certification completions and a 51% increase in Academy student activity. Skilled in ADDIE-aligned instructional design, team leadership, learning content and video development, AI-assisted content development, webinar and workshop facilitation, and using KPIs and analytics to continuously improve programs. Deep HCM and compensation software expertise from professional services, implementation, and product support roles. MBA in Human Resources Management.

PROFESSIONAL EXPERIENCE

Payscale | 2021 – October 2026

Team Lead, Customer Education (2024–2026)
Senior Product Training Manager (2023–2024)
Product Training Manager (2021–2023)
Senior Customer Support Associate (2021)

- Led the development and expansion of the customer education webinar program, increasing annual offerings by over 400% and live attendance by approximately 400%, with consistent year-over-year analytics showing 2–3× higher product engagement among attendees compared with non-attendees.
- Conceptualized and led annual Live Certification Week programs following an ADDIE-aligned approach, from learner needs analysis through post-event evaluation, expanding instructor-led certification offerings by 50% and driving increases of 204% and 113% in monthly certification completions in 2024 and 2025, respectively.
- Drove a 51% week-over-week increase in Academy student activity during the 2025 Certification Week, which coincided with the year’s highest certification month.
- Led a customer education team delivering live product training webinars, one-on-one customer training, and video training resources, maintaining consistently high customer satisfaction (CSAT) scores.
- Developed customer-facing product video resources for the Academy program, contributing to 155 videos through scriptwriting, narration, production, or end-to-end creation and created all video scripts for the Compensation Fundamentals Certification program.
- Collaborated on defining customer education KPIs and performance measurement strategies, leveraging Salesforce reporting and other program analytics to evaluate effectiveness, identify trends, and present actionable insights that fed back into content redesign.
- Planned and executed paid workshops for Payscale’s annual Compference thought leadership event, sourcing speakers, conceptualizing and developing topics, coaching presenters on public speaking and delivery, and providing design-focused feedback on content and deliverables to strengthen customer engagement.

- Developed standard operating procedures (SOPs) and documentation for multiple training offerings to support consistent program execution.
- Integrated Claude (AI) into team workflows to draft first-pass video scripts and slide deck content, automate monthly webinar digests via Asana, and speed metrics analysis; refined all output for accuracy and quality.

Ascentis (a UKG Company) | 2016–2021

Team Lead, Professional Services (2020–2021)
Professional Services Consultant (2016–2020)

- Selected to lead a newly established, revenue-generating Professional Services team, designing operational workflows for project intake, scoping, pricing, resource allocation, and delivery of HCM solutions.
- Managed client engagements from initial consultation through project delivery, coordinating cross-functional resources to meet customer requirements and support successful product adoption.
- As a Professional Services Consultant, managed HCM software implementations, including solution design, system configuration, and testing, and delivered client training to prepare customers for go-live.

Salary.com (formerly IBM) | 2013–2016

Professional Services Product Support Specialist

- Delivered personalized one-on-one product training, technical troubleshooting, and guidance on complex compensation processes and software functionality.
- Provided dedicated product support and consultation for a portfolio of approximately 200 customer accounts utilizing compensation management software.
- Served as a trusted product resource, helping customers navigate technical challenges, optimize software utilization, and apply compensation management best practices.
- Executed customer data imports and supported data management activities to ensure accurate and effective use of compensation solutions.

National Grid | 2012–2013

Human Resources Business Partner (Contract)

Boston Scientific | 2010–2012
