Open to remote leadership roles in Customer Education, Enablement and Professional Services.

ABOUT

From HR to customer education

Customer Education and Professional Services leader with 10+ years in SaaS and HCM technology: compensation, performance management, benefits, payroll and time keeping.

I started my career in HR, then spent the next decade on the software side of it: supporting compensation platforms, implementing HCM systems, and leading the teams that teach customers how to use them well.

At Payscale I grew from a product trainer into a Customer Education Team Lead, managing our live product training initiatives: scaling the webinar program, launching Live Certification Week, and building out the Academy video library. I also formalized our one-on-one training into distinct offerings, like New Account Training and Personalized Product Training, turning paid training hours into a new source of revenue. Before that, at Ascentis (a UKG company), I was selected to lead a new revenue-generating special projects team within Professional Services and managed HCM implementations from scoping through client training.

I pair that hands-on product knowledge with ADDIE-aligned instructional design and a focus on measurement: defining education KPIs, reporting on program impact, and using the data to keep improving. I also bring AI into my workflow, using Claude to draft first-pass scripts and slide content, automate recurring communications and speed up analysis, while refining everything for accuracy. I hold an MBA in Human Resources Management.

CORE SKILLS

- Customer Education Strategy
- Customer Onboarding & Adoption
- Learning Program Design
- Instructional Design (ADDIE)
- Certification Program Development
- Product Training
- Instructor-Led & Virtual Training
- Webinar & Workshop Facilitation
- Video Scriptwriting & Production
- AI-Assisted Content Development
- Learning Analytics & KPIs
- Team Leadership
- Professional Services
- HCM & Compensation Software

CAREER HIGHLIGHTS

Programs I built, and what they delivered

Programs I conceived, built or led, with the results leadership cared about.

PAYSCALE · CUSTOMER EDUCATION

Scaled the customer webinar program

Led the development and expansion of live product training webinars while keeping customer satisfaction consistently high.

400%+
5-year growth in annual webinar offerings

2–3×
higher product engagement among attendees

SAAS HCM COMPANY · 2024–2025

Conceived Live Certification Week

Created and led an annual live product and compensation fundamentals certification initiative using an ADDIE-aligned approach, from learner needs analysis through post-event evaluation, expanding instructor-led certification offerings by 50%.

204%
increase in monthly completions during the initial launch (2024)

113%
increase in monthly completions the following year (2025)

Full case study on page 4 · Read online

PAYSCALE · ACADEMY

Designed product curricula for Academy video courses and certification programs

Designed the curriculum and wrote all scripts for the Compensation Fundamentals Certification, and co-designed the Payfactors product curriculum for Academy and webinar offerings. Wrote, narrated and produced customer-facing product videos using Camtasia.

155
videos created or contributed to

ASCENTIS (A UKG COMPANY)

Launched a special projects team within Professional Services

Selected to lead a new, revenue-generating team, designing how projects were taken in, scoped, priced, staffed and delivered across HCM products.

New team
revenue-generating, built from the ground up

5 products
benefits, performance, comp planning, ESS, time keeping

CASE STUDY · SAAS HCM COMPANY · 2024–2025

Live Certification Week: bringing a self-paced certification course to life

I conceived and led a live, multi-day certification event that turned a self-paced, Academy-based certification course into an instructor-led experience. Both years it ran, it produced the highest monthly certification count of the year.

+204%
monthly certifications over the prior month at launch (2024)

+113%
monthly certifications over the prior month the following year (2025)

Top month
for certifications in both 2024 and 2025

The challenge

Our new Academy certification courses were built on short-form videos and articles. That suits independent learners, but many people learn better live, where they can ask questions and follow a set schedule. Without that structure, they were less likely to start or finish a certification.

The approach

Following an ADDIE-aligned approach, I proposed a live event to complement the self-paced courses. Instead of writing new curriculum, we translated the existing video scripts into webinar scripts and delivered them over several days in 90–120 minute sessions, with knowledge checks drawn from the exam and attendee-only study guides.

Execution and scale

In 2024 I worked around Zoom's limits with an Asana intake form. In 2025 we moved to Goldcast, kept all the content, and added certifications for two more products using the same tiered method. Promotion ran in-product (Pendo), in our monthly email digest and through CSMs.

A tiered format that builds day by day

Day 1	Foundations, all levels	→ Beginner exam
Day 2	Intermediate + advanced	→ Intermediate exam
Day 3	Advanced only	→ Advanced exam

Each learner attends only as far as their goal requires; exam links go out at the end of the matching day.

My role

Concept	Identified the gap for live learners and proposed the event
Program design	Created the tiered, multi-day structure across levels
Content	Wrote the flagship product video scripts and led their adaptation into webinar scripts
Registration	Devised the Asana intake workaround for Zoom's limitations
Study guides	Built attendee-only guides from webinar transcripts
SME coaching	Sourced and coached presenters on delivery, engagement and content design

Full case study: rebeccakavalchuck.com/live-certification-week.html

WORK SAMPLE · INSTRUCTIONAL DESIGN

Market Benchmarking 101

A storyboard for a 3-minute microlearning video that teaches HR practitioners how percentile targets and market segmentation shape a competitive pay range.

LEARNING OBJECTIVE

Learners will be able to explain how percentile targets and market segmentation shape a competitive pay range.

DESIGN APPROACH

One workplace scenario runs through seven short segments, with a mid-video knowledge check and a closing recap.

MY ROLE

Needs analysis, learning objective, scriptwriting and storyboarding in Canva.

STORYBOARD · MICROLEARNING VIDEO · 3:00

Market Benchmarking 101: Pricing Jobs to the Talent Market

Designed by Rebecca Kavalchuck, MBA · Customer Education & Enablement

AUDIENCE

HR generalists, recruiters and new compensation practitioners

LEARNING OBJECTIVE

Learners will be able to explain how percentile targets and market segmentation shape a competitive pay range.

FORMAT

Narrated motion-graphics video, 16:9, about 430 words of voiceover at 150 wpm

DESIGN APPROACH

Scenario-based. One company's problem threads through every scene, so each concept answers a real question.

Chunked. Seven segments of 15–40 seconds, one idea each.

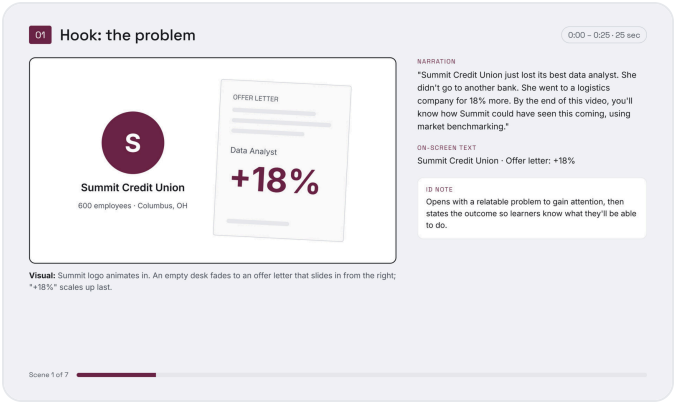

Retrieval practice. A mid-video question asks learners to apply the concept before moving on.

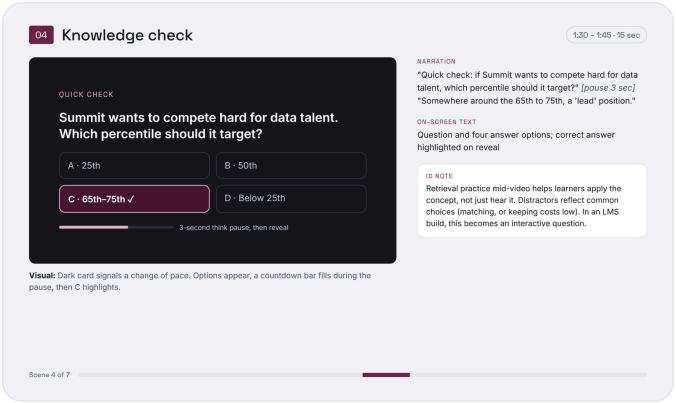

Dual coding. Each visual mirrors the narration rather than repeating it as text.

SCENES

01 Hook: the problem	0:00
02 Why benchmark	0:25
03 What percentiles mean	0:50
04 Knowledge check	1:30
05 Talent competitors	1:45
06 Segment the market	2:15
07 Recap	2:45

All company names and pay figures are fictional and for illustration only.

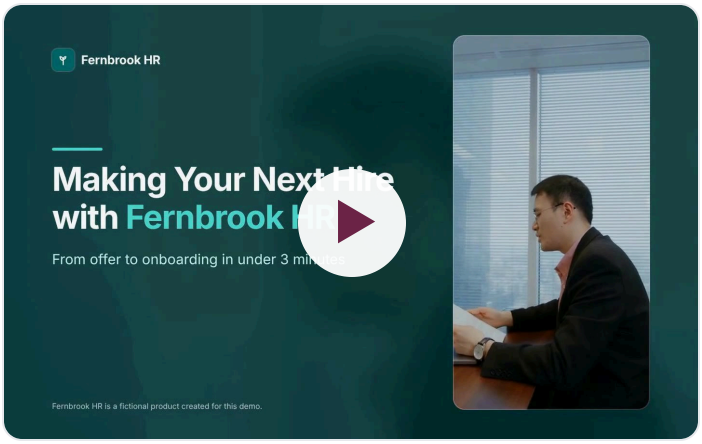

Cover, scene 1 (hook) and scene 4 (knowledge check) of 7. Full storyboard: rebeccakavalchuck.com/Market_Benchmarking_Storyboard.pdf

WORK SAMPLES · VIDEO AND E-LEARNING

Training I've designed and produced

PRODUCT TRAINING VIDEO · 2:17

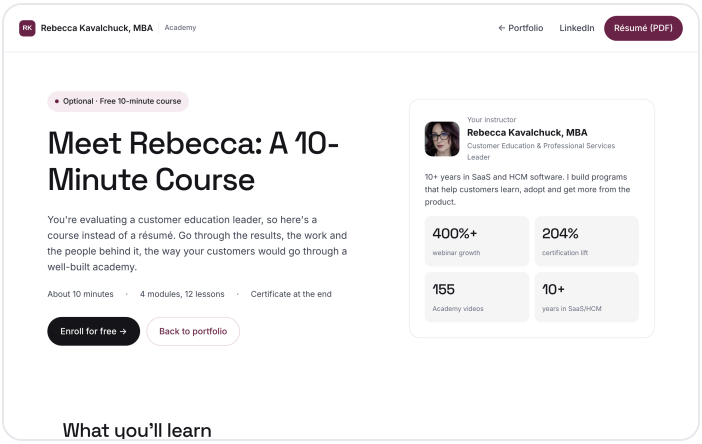

Making a hire in Fernbrook HR

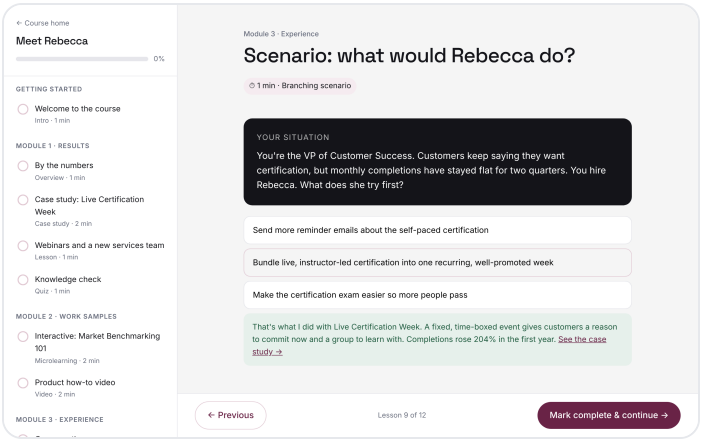

A product how-to I planned, narrated and produced: moving a candidate through the pipeline to kicking off onboarding.

- **Built around the learner:** learning goals up front, then one task at a time.
- **Narrated and produced:** voice-over, branded intro and outro, zooms and callouts timed to the narration.
- **Realistic workflow:** a demo environment, so no proprietary product is shown.

Watch: vimeo.com/1239311195

Fernbrook HR is a fictional product created for this demo.

INTERACTIVE E-LEARNING · ABOUT 10 MINUTES

Meet Rebecca: a 10-minute course

My portfolio, rebuilt as the kind of course I'd build for customers. It shows how I structure learning, not just what I've done.

- Four short modules with a progress tracker
- Knowledge check with feedback on every answer
- Clickable microlearning lesson and a branching scenario
- Flip cards, an expandable career timeline and a printable certificate

Take the course: rebeccakavalchuck.com/course.html

EXPERIENCE

Where I've done the work

2021 – 2026

Team Lead, Customer Education

Payscale

Promoted from Senior Customer Support Associate → Product Training Manager → Senior Product Training Manager

- Over five years, grew annual webinar offerings by more than 400% and live attendance by roughly 400%, with attendees showing 2–3× higher product engagement than non-attendees.
- Conceived and led Live Certification Week following an ADDIE-aligned approach, from learner needs analysis through post-event evaluation, driving a 204% increase in monthly certification completions during its initial 2024 launch and a 113% increase the following year.
- Led a team delivering live product webinars, one-on-one training and video resources, with consistently high CSAT.
- Formalized one-on-one training into distinct offerings, including New Account Training and Personalized Product Training, developing the processes, procedures and eligibility criteria for each. Personalized Product Training used paid training hours to generate revenue.
- Designed the Compensation Fundamentals Certification curriculum and co-designed the Payfactors product curriculum for Academy and webinar offerings.
- Contributed to 155 customer-facing Academy videos through scriptwriting, narration and production, including all scripts for the Compensation Fundamentals Certification.
- Defined education KPIs with Salesforce reporting and program analytics, presenting insights that fed back into content redesign; wrote SOPs for consistent delivery.
- Planned paid workshops for the annual Compference event, from sourcing speakers to coaching presenters.
- Integrated Claude (AI) into team workflows to draft first-pass video scripts and slide content, automate monthly webinar digests in Asana, and speed up metrics analysis, refining all output for accuracy and quality.

2016 – 2021

Team Lead, Professional Services

Ascentis (a UKG Company)

Promoted from Professional Services Consultant

- Led a newly established, revenue-generating special projects team within Professional Services and designed its operating workflows.
- Managed client engagements from initial consultation through delivery, coordinating cross-functional resources to support successful product adoption.
- As a consultant, managed HCM implementations (solution design, configuration and testing) and trained clients to prepare for go-live.

2013 – 2016

Professional Services Product Support Specialist

Salary.com (formerly IBM)

Compensation management software

- Delivered one-on-one product training, troubleshooting and guidance on complex compensation processes.
- Supported and advised a portfolio of about 200 customer accounts.
- Served as a trusted product resource, helping customers optimize the software and apply compensation best practices.
- Handled customer data imports and data management to keep solutions accurate.

Earlier

HR Business Partner (Contract), National Grid · Talent Acquisition Coordinator, Boston Scientific · HR Specialist (Contract), Raytheon · Education & HR Coordinator, IDC Research, Inc.

SKILLS, TOOLS & CREDENTIALS

What I work with

The platforms behind the programs, plus the education and credentials behind the design work.

TOOLS & PLATFORMS

LEARNING & VIRTUAL TRAINING	Skilljar, Articulate, Camtasia, Vimeo, Zoom, Goldcast, GoToWebinar, Teams
CRM, ANALYTICS & CUSTOMER SUCCESS	Salesforce reporting, Tableau, Gainsight and Pendo (working familiarity)
AI, AUTOMATION & WEB	Claude (content drafting, Asana automation, data analysis, web development), GitHub
COLLABORATION	Asana, Confluence, SharePoint, Slack, Highspot, Seismic
HCM & COMPENSATION	Payfactors, MarketPay, CompAnalyst, Ascentis, Oracle, PeopleSoft, SAP, Taleo

EDUCATION

MBA, Human Resources Management
Walden University

BGS, Human Services
University of Connecticut

AS, Liberal Arts & Sciences
Three Rivers Community College

RECOMMENDATIONS

What colleagues say

From a manager, peers and a direct report. More on **LinkedIn**.

"Simply put, Rebecca is a powerhouse."

If you are looking for a creative self-starter who can step into ambiguity, solve complex problems, and immediately elevate the customer experience, hire her. During our time working together, Rebecca completely transformed our webinar and live training strategy. She is the rare leader who pairs boundless creativity with operational execution. She significantly drove up program attendance and found innovative ways to support and educate our customers at scale.

LC

Lauren Cole
Strategic Post-Sales People Leader · managed Rebecca directly at Payscale

"I was impressed by her deep product knowledge and her ability to make complex topics easy to understand."

Rebecca is a great person to work with and combines exceptional product knowledge with creativity, strategic thinking, and a genuine passion for helping others learn and succeed. Having experienced Rebecca's work both as a customer and as a colleague, I can confidently say she brings tremendous value to every team she's part of.

JW

Jenna Ward, PMP
Senior Program Manager, HR & SaaS Program Delivery · worked with Rebecca on the same team, and first as a customer

"She is truly someone who stands out as an exceptional leader, colleague, and friend."

As the manager of the webinar program on the Customer Education Team, Rebecca brought outstanding leadership, a collaborative mindset, and an impressive depth of product knowledge to everything she did. She has a natural ability to bring people together, share her expertise, and ensure the team is set up for success. Her professionalism, reliability, and willingness to support others make her an invaluable asset to any organization.

RD

Rachel DeMarco
Community Engagement and Technical Content Manager · worked with Rebecca on the same team for six years

"Anyone who wants a leader who genuinely cares about customer success and about the people on her team should be lucky enough to work with her."

Working with Rebecca Kavalchuck on the Customer Education team was one of the best experiences of my career. As Team Lead, she set a high bar for how we supported customers, and her 1:1 trainings and group webinars showed it. She had a rare ability to meet each customer where they were, whether that meant patiently walking someone through a complex workflow or making webinars feel lively and worth attending. She also taught me to prepare for every session with the learner in mind, not just the content. I learned how to teach more clearly and listen better because of her.

JB

Jenna Blake
Senior Product Training Manager · reported directly to Rebecca

BEYOND WORK

Behind the camera

When I'm not working, I'm an emerging photographer. I create art through photography and sell my work locally. It sharpens the same eye for detail and storytelling I bring to training content. See more at @wander.veil.studio.

LET'S TALK

Hiring? Let's talk.

I'm looking for my next role leading customer education, enablement or professional services for a SaaS company. I'd love to hear about your team and what your customers need to learn.
